NEW QUESTION 3

A company use Dynamics 365 Business Central. The company identifies the following issues:

Users report they cannot perform planning and dispatching of service orders or track bills of material in the system. The finance department says that licensing costs are higher than budgeted.

You need to recommend a solution to address the issues. What should you recommend?

- A. Use the Lifecycle Services business process modeler to create service order management and manufacturing tasks in the BPM Library.
- B. Perform a fit-gap analysis
- C. Implement service order management and manufacturing business processes and license changes.
- D. Configure all users as Business Central Premium users.
- E. Ensure that the service order management and manufacturing processes steps are documented in a flow chart.
- F. Configure all users as Business Central Essentials users.

Answer: B

NEW QUESTION 4

A trading company is concerned about the impact of General Data Protection Regulation (GDPR) on their business.

The company needs to define personal data for their business purposes. You need to define personal data as defined by GDPR.

Which three types of data are considered personal data? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. password
- B. Social Security number
- C. a portion of the address (region, street, postcode etc.)
- D. International article (EAN) number
- E. MAC address

Answer: ABC

NEW QUESTION 5

A company needs to create customer-facing documents in Dynamics 365 Finance.

The company does not have an in-house developer.

You need to determine a solution for creating the documents.

Which three tools should you recommend? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. SSRS reports
- B. Microsoft Excel
- C. Electronic reporting
- D. Microsoft Word
- E. Financial reports

Answer: BCD

NEW QUESTION 6

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A company with multiple legal entities implements Dynamics 365 Finance.

You need to recommend options to ensure that you can provide customized financial reporting across the legal entities. Solution: Create separate departments to manage functional areas.

Does the solution meet the goal?

- A. Yes
- B. No

Answer: B

NEW QUESTION 7

A company is headquartered in Canada and has four regional offices in Japan, Great Britain, Germany, and Mexico. An architect is documenting the following business requirements:

Accounts payable parameters must be unique within an organization.

Monthly financial results must be consolidated.

You need to design the organization to map to the requirements. Which functionality should you use?

- A. Legal entities
- B. Line of business
- C. Business units
- D. Operating units

Answer: C

Explanation:

- A. Data Import/Export Framework
- B. Data migration tool
- C. Combine XPO tool
- D. Usage profiler

Answer: A

Explanation:

Reference: <https://docs.microsoft.com/en-us/dynamicsax-2012/appuser-itpro/what-s-new-data-import-export-and-migration>

NEW QUESTION 10

DRAG DROP

A winery is considering using Dynamics 365 Finance to implement a large-scale ERP application and needs to understand the differences between cloud-based and on-premises deployments. You need to recommend deployment options for the company.

What should you recommend? To answer, drag the appropriate deployment types to the correct features. Each deployment type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

NEW QUESTION 10

DRAG DROP

A company plans to implement Dynamics 365 Supply Chain Management. The company has the following requirements:

Use mobile devices for warehouse activities including cycle counting. Set up automatic cycle counting work IDs and assign the IDs to workers.

Ensure that workers can group work IDs that are specific to a particular location, zone, or work pool. Ensure that workers can specify a cycle counting work ID that has a status of Open.

Ensure that workers can count items in a warehouse location at any time.

You need to recommend cycle counting options that meet the company's requirements.

What should you recommend? To answer, drag the appropriate counting options to the correct requirements. Each counting option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Reference: <https://docs.microsoft.com/en-us/dynamics365/supply-chain/warehousing/cycle-counting>

NEW QUESTION 15

An organization is planning a new Dynamics 365 Finance + Operations (on-premises) implementation.

The business process demands a huge volume of transactions to be imported during peak hours. Users can always access the system. You need to do proper hardware sizing to ensure expected performance.

Which two factors should be considered for sizing? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. user profile management
- B. business process optimization
- C. deadlock log evaluation
- D. crash dump analysis
- E. transaction characterization

Answer: BE

NEW QUESTION 18

You are an architect implementing a Dynamics 365 Finance environment.

You need to analyze test results generated by the development team. Which tool should you use?

- A. Trace parser
- B. Task Recorder
- C. Regression suite automation tool
- D. SysTest

Answer: A
